Microbiology Special achievements / Awards/ Prize

- Organized Microbiology Model Exhibition cum contest **on 08.11.23** at 4th Floor, Microbiology Practical Hall, ESICMCH, Alwar for 2nd MBBS Students. Exhibition was done to unlock the imagination and creativity, to discover the hidden talent of the students and for better understanding of the subject. The theme of which was “**Best from Waste**”. The students had prepared the models by using waste materials like cardboard, electric wires, bulbs, syringe, needles, expired medicines, matchsticks, beads, pins, colored papers, pens, toys, thread, pots, colored clay, thermocol, glass, plastic bottles etc. Students had prepared the models on viruses, bacteria, parasites, immunological techniques, instruments etc. They had also prepared models on burning topics like Anti-microbial resistance, variants of SARS-COV-2, biomedical waste management, HIV, Hepatitis virus, Biosafety cabinet etc.
- In celebration of 73rd anniversary of ESIC fortnight series of events being conducted in ESIC MCH, Alwar to celebrate ESIC Foundation Day, the Department of Microbiology, organized a significant awareness program on Hand Hygiene and Segregation of Biomedical Waste on 19 February, 2024 through skit and dance activity. The event aimed to educate and engage both students and stakeholders on essential practices for infection control and waste management in order to prevent the spread of deadly diseases. Students from the MBBS II took center stage, delivering powerful messages through a skit performed in simple, layman language. They also captivated the audience with a dance performance meticulously depicting the steps of proper hand hygiene.

- Organized guest lecture on Biomedical waste color coding and QR Coding by manager
- West code link LLP on 21/02/24
